

# Sebastien ROLAND

DevOps / QA Tester

**Email:** sebastien.roland@icloud.com

**Téléphone:** +32492427225

**Localisation:** Brussels, BELGIUM

**LinkedIn:** linkedin.com/in/sébastien-roland79/

**GitHub:** github.com/ROLANDsebastien

**Site Web:** rolandsebastien.github.io

## Summary

Junior DevOps professional (career changer) with strong technical expertise in **Kubernetes**, **Docker**, and **Terraform**.

**ISTQB Foundation** certified, having completed **QA Tester** training.

Professional background highlights **versatility** and **rigor**, key skills for collaborative Continuous Integration/Continuous Deployment (CI/CD) projects.

Strong interest in Artificial Intelligence.

Eligible for the **Activa Brussels** employment benefit and open to an **Individual Professional Training in Enterprise** (FPIE).

## Experience

### Workstation

06/2025 - 09/2025

DevOps Intern

Implementation and configuration of **Kubernetes** clusters with k3s for development environments.

Creation and optimization of **Docker** images for various applications.

Development of **Terraform** scripts to automate the creation and management of virtual machines on **Azure**.

Use of **Ansible playbooks** for automated provisioning and configuration of virtual machines.

Proficient in **Linux** and **Bash scripting**.

### CellTest RTBF

08/2024 - 10/2024

QA Intern

Active participation in the Quality Assurance of the AUVIO streaming service, performing **functional tests** across a wide range of platforms (Web, Mobile, Connected TV, Console). Used Squash Test for test case design and organization of **functional** and **regression test campaigns**.

Identified, documented, and tracked anomalies via **Jira** within the AUVIO project test team, facilitating their resolution by development teams.

### Delhaize

09/2022 - 05/2024

Order Picker

### Résidence P&V

10/2011 - 05/2021

Head Waiter

Dining room service, bar operations, and cash handling.

Inventory management and schedule coordination.

### Elison / Eldorado & Co

02/1999 - 10/2010

Lighting Engineer

Lighting Engineer specializing in automated (moving) lights.

With a solid experience in creating stage plans for corporate and live events across Europe, as well as for stadium tours

# Education

## Bruxelles Formation

10/2024 - 05/2025

DevOps

**Versioning** using **Git**. Application **containerization** with **Docker** and orchestration via **Kubernetes**.

**Infrastructure as Code** management utilizing **Terraform**.

Automated system provisioning and configuration with **Ansible**.

Implementation of **Continuous Integration** and **Continuous Deployment** (CI/CD) pipelines using **Jenkins** and **GitLab CI**.

Integration of software quality and automated testing with **Selenium** and **SonarQube**.

Environment surveillance and monitoring using **Prometheus** and **Grafana**.

## Bruxelles Formation

05/2024 - 10/2024

QA Tester

Introduction to the world of testing, development of detailed **Test Plans** and **Test Cases**.

Skills in drafting comprehensive **Test Campaigns**. In-depth knowledge of **agile methodologies**.

Proficiency in using the **Jira** tool for ticket, communication, and bug management.

Experience in bug management and drafting anomaly reports.

Successfully prepared for the **ISTQB Foundation** Exam.

## Alpes Avenir Formation

01/2010 - 02/2011

Professional Baccalaureate in Computer and Network Support

Expertise in the **installation** and **repair** of **Windows** operating systems.

Acquired foundational **networking** knowledge (topologies, protocols).

Ability to **diagnose system** and **network** failures/faults.

Proficiency in **hardware repair** and replacement procedures.

# Certifications

## ISTQB ( CTFL ) GASQ

11/2024

Certification Number : 115594

<https://www.gasq.org/en/certification/check-a-certificate.html>

# Skills

**Soft skills:** Agile, communication, Teamwork, Punctuality, Problem-Solving, Organized, Adaptability, Time Management

**Quality Assurance (QA) & Testing:** ISTQB (CTFL), Functional and Manual Testing, Regression Testing, Jira, Squash Test

**Systems and Scripting:** Linux, macOS, Windows, Office 365, Git, Bash Scripting

**DevOps:** Kubernetes, Docker, Terraform, Ansible, CI/CD
